

## Video evidence search & analysis solution for law enforcement

*"Kinesense has seriously improved the rate of work within my department. Video searching is much easier and faster."*

*Senior investigating officer*

CCTV video surveillance footage helps solve crimes and convict criminals, but it can be an expensive and time-consuming process. It takes a significant amount of time to retrieve, watch, and report on video footage as evidence. It's also common to encounter incompatible proprietary video formats that can complicate the process.

**Kinesense LE** automatically searches for key events in footage from analog and digital CCTV systems. It's easy to use and guaranteed to help law enforcement agencies complete investigations with significantly less time and effort. This powerful tool enables time-efficient video retrieval, search and reporting from vast amounts of video evidence, while ensuring the integrity of your evidence.

You can use **Kinesense LE** on individual machines, or employ it across your organization to make all of your retrieval, review and reporting processes more efficient.

## Kinesense LE key benefits:

- Gives you actionable intelligence, fast
- Saves 95% of time with automatic event detection
- Simplifies the process of analyzing video evidence
- Reduces the cost of video investigations
- Automates disclosure reporting
- Frees up staff time

**Kinesense LE offers flexible plans to suit a range of organization sizes and needs. If you'd like actionable intelligence faster, contact us at [info@kinesense-vca.com](mailto:info@kinesense-vca.com) to find out which Kinesense LE product is right for you.**
